What makes this tree different

01

Two ways to see the tree

A top-down view of the whole lineage, or a directional view from any person: paternal line to the upper left, in-laws to the upper right, children below.

02

Authentic Indian kinship

Tauji, Chacha, Bua, Mausi, Mama, Jethani, Devrani and more, worked out automatically from the tree.

03

English to Hindi names

Type a name in English and its Devanagari spelling is suggested instantly, online or offline.

04

Your data stays yours

Everything is saved in your browser. Export a JSON backup any time and import it anywhere.

Where the lineage begins

Badri Prasad and Haudi Devi are the earliest ancestors recorded in this tree.
Every branch you can explore here grows from them.

Trace the lineage →

Build your own family tree

Start a blank tree, import a backup, or keep exploring the Gupta family.

Multi-tree accounts and GEDCOM support are on the roadmap.
